Weiser Security

versus

In-house Security

Compare your In-house Security to the service Weiser Security provides. $\label{eq:compare}$

Explore the advantages of making the move to Weiser.

Contact us with your questions or for additional information.

Flexibility

- 1. Right to remove any officer, any time, without cause.
- 2. Able to modify coverage without EEOC, employee relations concerns or labor problems.
- Automatic filling in for sick, disabled, or officers absent or on vacation.
- 4. No difficulty in:
 - a. increasing or decreasing posts
 - b. changing assignments
 - c. arranging split shifts
- Unsatisfactory officers can be removed immediately and need not be absorbed elsewhere.
- Recruitment, screening, selection needs provided as specified.
- 7. Training modified as necessary.
- 8. Can modify manpower needs to cyclical surges and sags.
- 9. In-house Director's flexibility, availability increased.

Familiarity

- 1. Reduction in possibility of collusion.
- 2. Not likely to have close personal ties with work force.
- 3. In-house familiarity tends to inhibit guard performance.
- 4. Can eliminate fraternization.
- 5. Guards easily changed if they become too friendly.
- 6. Difficult for in-house guards to maintain objective security relationship with fellow employees.
- 7. Hard for in-house guards to report theft, drug violations, or work rule infractions on part of co-workers.

Objectivity

- No direct involvement in establishing practices or operating the facilities.
- 2. May see problems or undesirable situations that are not apparent to management.
- 3. Personal influences eliminated.

2

Other Services

- 1. Consultation
- 2. Remote Monitoring & Control
- 2. Investigative
- Technical

Control

- Operations monitored by twice as many checks and balances. (Weiser management and client management)
- 2. Enforcement of detailed procedures achieved through structured communication.
- 3. Can guarantee specific initial and continuous training.
- Immediate response and flexibility to policies, procedures and demands.
- Supervision back up with support controls from various levels of expertise including Branch Staff, Region, Corporate, Training, and Human Resources.
- In-house control from administrator to Weiser's manager to officers.

Reliability

- Increased screening procedures can increase chance of reliability of guards.
- Constant communication can achieve a reliable guard force.
- 3. Satisfactory pay rates produces stability.
- Loyalty and sense of belonging instilled from management.
- Loyalty exists as Weiser is "on probation" every day.
- 6. Statistical Quality Control Measurement Program.
- 7. InnerView™ Guard Performance and Assignment Profile

Emergency Situations

- Pool of trained reserves.
- Available on short notice.
- 3. Difficult for in-house force to meet demands.
- 4. Management available and on-call 24/7.
- 5. Vehicle transport & patrol fleet

6

Indirect Savings

- Preparation for general guard functions.
- 2. Supervision provided
- Elimination of hiring process, cost, time and inconvenience
- Liability is shared.
- Savings from time spent on labor problems, EEOC, and employee relation concerns.
- Can expand role of in-house management by getting away from "chief of the guard" functions, administration, scheduling.
- Elimination of administrative detail.
- Convenience of personal life of in-house managers not being disturbed on nights, weekends, and holidays when shift assignments are made to compensate for absent guards.
- 9. Problems of manpower requirements eliminated.
- Multiplier factor eliminated. For example, two posts around the clock require nine guards rather than eight. You pay for the number of guard hours, not guards.
- 11. One payment rather than a paycheck for each officer.
- Free from wrongful hiring or retention liability, as risk is shifted to the contractor.

Cost Reduction

- Can achieve quality level desired without locking in substantial fixed overhead.
- 2. No payroll taxes.
- 3. No Worker's Compensation
- 4. No retirement
- 5. No hospitalization/major medical
- 6. No vacation
- 7. No employee discounts
- 8. No overtime
- 9. No administration time and costs
- 10. No training time and costs
- 11. No hiring time and costs of
 - Recruiting
 - b. Background checking
 - c. Interviewing
 - d. Personnel files
 - e. Miscellaneous clerical costs
 - g. Classified Advertising

more

Cost Reduction

- 12. No payroll processing
- 13. No supervision
- 14. No clerical time
- 15. No testing
- 16. Materials and supplies eliminated
- 17. No interest cost of maintaining payroll
- 18. No shift differential
- 19. Reduction of insurance premiums
 - a. Liability shared
 - As in-house labor force is reduced, worker's compensation experience modifier and unemployment modifier and exposure is reduced.
 - c. Eliminates false arrest insurance, etc.
 - d. Eliminates crime bond.
- Pay for required number of guard hours only, not required number of officers.

Cost Breakdown of In-house Security Guards

I. WAGES

A. Constant Coverage
1. Straight Time
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per year
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per year
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per year
2. Overtime
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per year
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per year
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per year
3. Shift Differential (if any, for guards working other than first shift)
no. of guards X \$ per hour X hours/week X 52 weeks = \$ per yea

B. Holidays				
1. Paid holidays to those not working on the holiday				
guards X \$ per hour X holidays X 8 hours per holiday = \$ per year				
guards X \$ per hour X holidays X 8 hours per holiday = \$ per year				
2. Holiday pay to those working on the holiday				
(premium is either half normal wage , pay = 1.5% or same as normal wage, pay = 2% if all guards are given paid holidays)				
guards X \$ premium/hour X holidays X hours worked per holiday = \$				
per year				
guards X \$ premium/hour X holidays X hours worked per holiday = \$ per year				
C. Vacations				
guards X \$ per hour X hours vacation = \$ per year				
guards X 4 per front X fronts vacation = 4 per year				

Cost Breakdown of In-house Security Guards

guards X \$ per hour X hours vacation = \$ per year
Fill-In Coverage (premium cost, , to fill in for vacation, sickness, absences, etc)
Avg fill-in days per guard X guards X \$ per hour X .5 X hours/shift =
\$ per year
Training
. Initial Training
guards hired per year (include turnover replacements) X hours training X \$ nour = \$ /year
On Going Training and Specialized Training (First Aid, Firefighting, Weapons, etc.)
training causes more then 40 hrs to be worked in the week, multiply by 1.5)
1
